|---------------------------|---|
| <b>Use Case</b>           | <b>Obtain ticket for movie.</b>   |
| <b>Actor</b>              | Dan (Student).  |
| <b>Basic flow</b>         | Dan got a recommendation from his friend to watch a James Bond movie. Because it was too late, Dan finally ordered through a new application on his smartphone. When he booked for the following week, by the time he wanted it, the place was already full. Dan was given another option and finally Dan chooses the seats and showing time that he wants, confirms the booking, and pays for it. After that, Dan double check the cinema to make sure the cinema is equipped with suitable sound amplification technology that links in to his hearing aid. |
| <b>Alternative flow 1</b> | If the chosen showing is fully-booked, Dan book an alternative that is offered.   |
| <b>Alternative flow 2</b> | If the alternative book is available, Dan chooses the seats and showing time that he wants.   |
| <b>Alternative flow 3</b> | If Dan already choose the seat and showing time, he pay for it.   |
| <b>Alternative flow 4</b> | If Dan pay for the ticket, he double check the cinema to make sure its equipped with suitable sound amplification technology.   |
